my job's calling me and i sure need the dough life won't wait and i'll earn my fate my time's now, i need to go

[Chorus] nothing going to come my way if i sit here and wiat nothing going to come my way if i sit here and wait no time no time to sit back and relax to much to do to sit back and relax no time no time to sit back and relax to much to do to sit back and relax

traveled miles of road in a box with four wheels no plans just a load of will to see me through

[Repeat chorus]
