

# Rivets, Motivation

Go!!

Dont be afraid of the unknown

Theres something new out of this world

Follow the music, if youre feeling this vibe let it flow

Here we go!!

Just pack your stuff and hit the road

Dont do it right just play it wrong

Just cry it loud and if youre feeling alive let me know

Theres always someone beside you thats feeling better

People on dope are just getting higher

All things we need we have to struggle for them harder

Just come close to me, I know you still can sing

So lets spread motivation now!

Go!!

Empty your head before it blows

Stand up and shout, youre not alone

Get on the stage and if youre hearing the crowd calling you...

Here we go!!

You dont need all this self control

Telling you when its time to glow

Leave your conscience, and if youre smiling just come to the show

Theres always someone beside you thats feeling better

People on dope are just getting higher

All things we need, we have to struggle for them harder

Just come close to me

I know you still can sing...

So lets spread motivation now!

Ohhh.... Ohhh... Ohhh... Ohhh....

Just come close to me

Ohhh.... Ohhh... Ohhh... Ohhh....

I know you still can sing (All the words that you can't say)

So lets spread motivation now!
