

# Rixton, Wait On Me

Wait on me  
I know how to love you  
I don't want to love you so more  
Wait on me  
Come a little closer  
Want to be the one to explore  
A little trouble never hurt nobody  
Ooh I want to feel your body  
Wait on me  
I know how to love you  
I don't want to love you so more

Take it, take it  
I'll get my heart to you for free  
Don't you break it, break it  
Along with every piece of me  
I'll hold the distance but not all of the way  
Say what you mean to me, and mean what you say, yeah  
I never wanna your ex-man  
I'll never make you feel ignored  
You can go and find your next man  
But I know what you waiting for

Wait on me  
I know how to love you  
I don't want to love you so more  
Wait on me  
Come a little closer  
Want to be the one to explore  
A little trouble never hurt nobody  
Ooh I want to feel your body  
Wait on me  
I know how to love you  
I don't want to love you so more  
So more

Say it, say it  
I know there's something on your mind, girl  
And I hate it, hate it  
When you just say like you're okay, yeah  
I wanna be the one and all that you need  
I listen to your heart, I know how it speaks  
I never wanna your ex-man  
I'll never make you feel ignored  
You can go and find your next man  
But I know what you waiting for

Wait on me  
I know how to love you  
I don't want to love you so more  
Wait on me  
Come a little closer  
Want to be the one to explore  
A little trouble never hurt nobody  
Ooh I want to feel your body  
Wait on me  
I know how to love you  
I don't want to love you so more  
So more

I wanna love you so more  
Come closer  
You know ya, don't feel like before  
I'll give you what you want till you want it more

In your head, in your heart, like never before  
If a good thing is what you waiting for  
Then don't you look no more

Wait on me  
I know how to love you  
I don't want to love you so more  
Wait on me  
Come a little closer  
Want to be the one to explore  
A little trouble never hurt nobody  
Ooh I want to feel your body  
Wait on me  
I know how to love you  
I don't want to love you so more  
So more
