

ROADHOG, Children of the Dark

In the dark we trust
The forgotten sons of angels
Children of the lust
With no hope, no love, no trust
Throw away and left alone, Got a Hunger In our souls
Lust for freedom, lack of love, 'cos we are – children of the dark

All we see is black and sorrow
Gloom is our actuality
Have no leaders, no tomorrow
Below the surface of veracity
Throw away and left alone, Got a Hunger In our souls
Lust for freedom, lack of love, faded hearts, our minds so restless
Throw away and left alone, Got a Hunger In our souls
Lust for freedom, lack of love, 'cos we are – children of the dark

Our bleary eyes
Bloody tears just for salvation
The eternal lies
Deepen our Bad frustration
Throw away and left alone, Got a Hunger In our souls
Lust for freedom, lack of love, faded hearts, our minds so restless
Throw away and left alone, Got a Hunger In our souls
Lust for freedom, lack of love, 'cos we are – children of the dark
