

ROADHOG, Dead of the Night

What happened to my brain? It drives me insane!
What happened to my body that I cannot move?
What happened to my senses, to my feelings and fate?
All my personal beliefs are now fading away,
Why can't I stop this painful game?

The ritual begins, now I'm locked in the dream
The dream that hurts and I want to yell and scream
His ghastly palace of darkness is my prison and cage,
There is no escape from his diabolic rage,
Why am I here? - in this eerie place!

Chorus:

In the dead of the night I hear the voice calling me
Deep inside the dark, is it real or fantasy?
In the dead of the night I hear the voice I know
He wants me to kneel before his bloody throne

Never ending nightmare which burns my mind
Tightness round my neck I start to suffocate
I'm out of breath, without chance, without courage to fight,
I'm now sentenced to death - He has no might,
My lost and blackened soul is in his sight
