

# Robbie Williams, Any Day Now

How long, how long, how long  
Will we take to come undone  
If you know the answer tell me now  
And I'll write at the calendar for our countdown

'Cause what if what we see is all, is all we've got  
Well say you've kept some fire aside  
To set alight to me some surprising night  
And say you've locked some fire away  
To set light to me some surprising day  
Any day now

How come, how come, how come  
I'm now on a road holding out my thumb  
If you know my destination please  
Well find me the "fastest" car and throw me the keys

'Cause what if what we see is all, is all we've got  
Well say you've kept some fire aside

To set alight to me some surprising night  
And say you've locked some fire away  
To set light to me some surprising day

Cause finger by finger we're losing grasp  
And I'm questioning the reasons  
Why nothing beautiful does last

Well say you've kept some fire aside  
To set alight to me some surprising night  
And say you've locked some fire away  
To set light to me some surprising day

To me some surprising day

Any day now
