

Robert Cichy, Smack (Męskie Granie Young)

Johnny Student was a keyboard key
and hold himself with a piano string
but when he left he play his beloved song
MGMIE the chords was so strong

when he listen his favorite guitar
he feel like Johnny Cash
a cowboy with the star
of his chest and fuck the rest sighs
he tells you how JD is going down

when he broke a Jacky's glass
everything started going back
he felt sober but his heart was dead
when his wife was taking care of him
no more Julian just straight without the ...
he lost his faith

only a keyboard stayed close to his heart
he needed only one string to make his own art

we are just like worms
in the...
when we lose control
now one cares about dead
we can play
.by the rest is outside
never care much
that the people died

that's how you play
that's what they say
that's how you play
that's what they say
