

Robert M, For Love (ft. Akil Wingate)

Tie a string around my finger love
I pray it brings a wedding ring for love
Made a wish upon a shooting star
Do a kiss, do whatever you want

It must be love, hope you?re find me soon
Shall we love under that clear moon
Cast a spell and hope it calls your name
I wish you well and hope you feel the same

Heartache won?t take my wishes for granted
So bring to me to love
Right here where I?m standing

I celebrate new love, dedicate to love
The things that we do for love

Haven?t take, I can wait for love
No mistake, that I pray for love
Everyday, I hope to find new love
Someone said, best to try to love
Love peace may try real love on me
Help me feel your love, mercy me
Is distant love my dreams

Don?t waste your time
Oh love has come
The day holds much more
Loves no open time

Right here where I?m standing
I celebrate new love, dedicate to love
The things that we do for love
I celebrate new love, dedicate to love
The things that we do

It must be love, hope you?re find me soon
Shall we love under that clear ...
Cast a spell and hope it calls your name
I wish you well and hope you feel the same
