

# Robin Schulz, Headlights (feat. Ilsey)

I know why you chasing all the headlights  
Cause you always tryina get ahead of light  
Baby when you go  
You know I'll be waiting on the other side  
And I'm always cold  
But if you stay then I could keep you warm at night

Don't be a fool for the city lights  
I know it's cool but it's only light  
Baby with you I can never lie  
Don't go chasing all the headlights

I could feel the beating of your heart on drum  
Don't know if I'm dreaming or if you have gone  
Every time you go  
Hits me like a bullet from a broken gun  
Yeah I know it's cold  
But if you stay then I could keep you warm at night

Don't be a fool for the city lights  
I know it's cool but it's only light  
Baby with you I can never lie  
So don't go chasing all the headlights
