

# Roger Hodgson, London

I wish I was in London  
Walkin' in the rain  
I wish I was in London  
I really miss the rain  
Oh just take me home again

I wish I was in England  
I really miss the Queen  
I wish I was in England  
I really miss the Queen  
Oh but is she missing me

What happened to the Empire?  
There's nothing in the Bank  
They gave away the empire  
Without a word of thanks  
Oh let's blame it on the Yanks

So give me rule Britannia  
Britannia rules the waves  
I live in California  
But it's really not the same  
Oh so take me home again  
Please take me home again...
