

# Ronnie Milsap, Desire

I wake up with it each morning take it to bed every night  
I feel it taking control when I turn out the light  
Just like a lonesome coyote just like a dog on the prowl  
I got this burning inside makes me wanna howl.

Chorus:

Every move that you make is fueling the fire  
Every ounce of my soul is feeling desire  
From the day that I met you the first time I looked in those eyes  
I felt my knees getting weak ok felt my temperature rise.

You're all I taste in my coffee you're all I dream when I sleep  
You're every whisper I hear everything I can see.

Chorus:

Every move that you make is fueling the fire  
Every ounce of my soul is feeling desire  
From the day that I met you the first time I looked in those eyes  
I felt my knees getting weak ok felt my temperature rise.

I want you to want me too  
Can't think of nothing but bein' with you.

Chorus:

Every move that you make is fueling the fire  
Every ounce of my soul is feeling desire  
From the day that I met you the first time I looked in those eyes  
I felt my knees getting weak ok felt my temperature rise...
