

Room 2012, Don

I woke up with my head in the clouds
I got a big fine smile
And Im ready to ride
Its just a good day (good day)
Its gonna be a hot day (hot day, yeah)
Head down town just to check out the vibe
See a hundred million honeys
Trying to catch my eye
Im like hot damn (hot damn)
Its gonna be a good day (good day, yeah)
All day long see different people
Running round in circles playing different sequels
Its just a case of the common people
So if you want it get it up

Chorus:

Don let the sun go
Down, down, down
Dont let the sun go
Down, down, down
Dont let the sun go
Down, down, down
Don let the sun go down on you
Yeah, yeah, shes feeling the vibe, she say
She says, she likes the way we putting it down
Im like hot damn (hot damn)
Its gonna be a good day (good day, yeah)
Check it out

Wake up in the morning
All you wanna do is hesitate
Switching your philosophy
From action to procrastinate
Wait Ill do it the evening
Now Ill do it in the later on
Yeah, yeah, carpe diem my friend, cause tomorrow may never come
All day long see different people
Running round in circles chasing sequels
Its just a case of the common people
So if you want it get up on it

Chorus

No, dont let it go down
No, dont let it go down (woo hoo hoo)
Hey, dont let it set low
You gotta get up, get up, get up, get up (woo hoo hoo)
Dont let, dont let
Too late, too late
Dont let the sun go down on you
Dont wait, dont wait
Too late, too late
Tomorrow is too late, yeah
