

Room 94, When I Was A Teenager

It was all so clear
When I was a teenager
Living for the weekend
Smoke a cigarette, no fear
I didn't need a girlfriend
Too busy living it up

Got beer and invented
Cocktails mixed in WKD
It was all about chasing skirt
Couldn't hurt life never slowed down for me

Don't tell me to sort it out
Like I'm 33
Cos I had life all figured out
When I was 16
I don't wanna live like them
No never wanna see 9 a.m.
Cos I knew what life was all about
Loving, living the dream

When I was a teenager
When I was a teenager

It was alright there
When I was a teenager
Doing all nighters
Didn't have a plan
Who cared?
Heading for a house party
Too busy living to stop

All I wanted was a fake ID
So I could drink beer with my KFC
It was all about getting smashed
Having fun we were rich but we had no cash

Don't tell me to sort it out
Like I'm 33
Cos I had life all figured out
When I was 16
I don't wanna live like them
No never wanna see 9 a.m.
Cos I knew what life was all about
Loving, living the dream

When I was a teenager

To all the mothers, older brothers ones above us
Were the summer lovers living out teenage dream
We don't wanna grow up and we ain't never growing up
Even if we see a century
