

Rosanne Cash, Take Me, Take Me

Take me, take me in your heart tonight
And make me think these things I say are right
In the morning I ignore the dawn
With a bag of dreams to a cold hard town
Take me, take me in your heart tonight

It's a easy thing to say you're leaving
I know I've done it everywhere I've been
In the morning we'll know the truth
And it makes me want to shout out what's the use
So take me, take me in your heart tonight

Make me feel like I'll see you again
Let's pretend we're happy like old friends
Make believe there's nothing wrong
Though the time's too short for a love so strong
So take me, take me in your heart tonight
