

Roxette, Big Black Cadillac

My baby came back in a big black
My baby came back in a big black
B-baby came back in a big black Cadillac

She looked better than good like she was did
You know she changed her name
Got one small kid
My baby came back in a big black Cadillac

Black Cadillac It seems he lost the knack
To block my mind attack when I came back
Black Cadillac I'm sure he missed my touch
I never really missed him much

She's diggin' for gold is what she's doin'
I gotta be older than a ruin
My baby came back in a big black Cadillac, Cadillac

Black Cadillac It seems he lost the knack
To block my mind attack when I came back
Black Cadillac I'm sure he missed my touch
I never really missed him much

Someday I'll sing and share
My brand new song with you everywhere
But there`s just something hangin' in the air
A sticky love affair, bubble gum in my hair

My baby came back in a big black
My baby came back in a big black
My baby came back in a big black Cadillac

Black Cadillac It seems he lost the knack
To block my mind attack when I came back
Black Cadillac- I'm sure he missed my touch
I never really, really missed him much

Black Cadillac He thinks I went too far
Arriving in that car, How bizarre!!
Black Cadillac Oh, Lord he missed my touch
I never really, really missed him much
