

Roxette, Happy Together

When she walked up
He walked down
Just like the seasons went round and round
She was in love
He wasn't sure
She wrote some letters he tried to ignore
They could have been
so happy together
They could have been
so lucky in love
Sing la dee da
So happy together
They could have run the earth, the sky, the sun

She carried his ring
Since she left school
He knew she was precious
The prettiest jewel
She wanted a baby
But he wasn't sure
He couldn't make up his mind anymore

They could have been
So happy together
They could have been
So lucky in love
Sing la dee da
So happy together
They could have run the earth, the stars, the sun

I couldn't ever hurt no one
If you feel shattered
I'm sorry for what I've done

We could have been
so happy together
We could have been
so lucky in love
sing la dee da
so happy together
We could have run the earth, the sky , the sun

yeah we could have been
so happy together
we could have been
so lucky in love
so happy together
we could have run the universe
could have run the universe
could have run the universe
for fun

so happy together
so happy together
so happy together
