Roxette, Reveal

Everything here, close to me Is just the way I want it to be It's all about faith, it's all about trust All about luck, not about lust My wish comes true My wish comes true

I don't mind showing for you I reveal everything for you Just about anything

Could it be night, could it be day Floating in space I was drifting away You're making me warm, you're making me high I feel like laughing where I used to cry My wish comes true

My dream comes true

I don't mind showing for you I reveal everything for you Just about anything for you I reveal everything for you Just about anything

I don't mind showing for you I reveal everything for you Just about anything for you I reveal everything for you Just about anything for you Everything for you Anything for you
