

Roxie (Roksana Węgiel), Half Of My Heart

I forgot to lock the doors
before I saw somebody like you
so no I am falling back
every boy reminds me of you
it's not about the compliments
you're putting my way lately
it's not about me
giving me /2x
I never really met
never really met somebody like you
is it just the way you talk
or am I cursed with what I choose
it's not about the compliments
you're putting my way lately
it's not about the compliments
you're giving me
giving me /2x

it's something in the way you're moving
that knocks me off my feet
I blame myself
cause there's somebody else I am feeling
half of my heart
half of my heart, baby
it's something that you're doing baby
that gets me off my feet
I blame myself
cause there's somebody else I am feeling
half of my heart
half of my heart, baby

half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby

will you come around
will you be somebody I could talk to
no I am losing ground
feeling like I am lost and on the loose
it's not about the compliments
you're putting me lately
it's not about the compliments
you're giving me
giving me /2x

it's something in the way you're moving
that knocks me off my feet
I blame myself
cause there's somebody else I am feeling
half of my heart
half of my heart, baby
it's something that you're doing baby
that gets me off my feet
I blame myself
cause there's somebody else I am feeling
half of my heart
half of my heart, baby

half of my heart

half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby

can I be one of these that you don't lie
can I be one of these that you give roses to
or am I too small to be around you
pick up the pieces of my heart
can I be one of these that you don't lie
can I be one of these that you give roses to
or am I too small to be around you
pick up the pieces of my heart

half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
half of my heart
half of my heart, baby
