

# Roy Orbison, Bad Boy

When we walk by people stop and stare  
They say that you don't care  
What people say about you  
But I know that you do and I do too

But let them say what they may  
We'll find a way to make our dreams come true  
Bad boy, bad boy I'll stand by you

I've heard them say you'll never change

That you're bad and bad to stay  
You're just that way  
And there's nothing that you can do

But my love for you will see me through  
And darling, I'm so proud  
So proud that I'll tell them out loud  
That I'm in love with you  
Bad boy bad boy....
