Roy Orbison, Can't Forget

Am i blue since you said forget Forget that we ever met It's too late, oh too late Can't forget This crazy thing was just a fling But oh, i can't forget

Don't want it to end Can't forget Can't leave it, can't take it Can't forget

Just remember, oh i still love you Don't forget It's over and done, i'm the lonely one Because i can't forget

It's over and done, i'm the lonely one Because i can't forget
