

Roy Orbison, Don't Take Her From Me

If you don't really love her
Don't take her from me
Because i really love her
And need her desperately

If you don't plan to give
All your love, for as long as you should live
Don't take her from me

If she's not something special
Don't take her from me
Because she's something special to me

Can't you see?

If she's not number one
Every day, till your whole life is done
Don't take her from me

There is only one for me
She is all there could ever be
So don't take her from me
