Roy Orbison, Evergreen

Evergreen

Joe Tanner

Sometimes love will bloom in the springtime Then like flowers in summer it will grow And then fade away in the winter When the cold winds begin to blow

But when it's evergreen, evergreen It will last through the summer and winter too When love is evergreen, evergreen Like my love for you

So hold my hand and tell me You'll be mine through laughter or through tears Then let the whole world see, our love will be Evergreen through all the years

For when it's evergreen, evergreen It will last through the summer and winter too When love is evergreen, evergreen Like my love for you Transcribed by Fred
