

Roy Orbison, Girl Like Mine

There's a girl in my life
The best little girl that I could ever find
Her lips are warm when the nights are cold
In the summertime she can make it snow
She's alright, she's alright
If you want to get a girl that's really fine
You gotta get a girl, a girl like mine
She's alright, she's alright.

You take your girl to a show
You got to stand in line but she says no
You finally get your ticket and you walk in
There she's standing with a silly grin

But not mine, she'll stand in line
If you want to get a girl that's truly fine
You gotta get a girl, a girl like mine
Cause she's alright, she's alright.

You buy your girl a fancy dress
That's the only way she'll look her best
I give my girl bell-bottom slacks
A big wide belt and she's a gas
She's alright, she's alright
If you want to get a girl that's really fine
You gotta get a girl, a girl like mine
Cause she's alright, she's alright
