

Roy Orbison, Help Me

Baby baby baby
I saw her again today
She reached out to touch me again
But I turned and walked away

Singing goodbye was easy to do
I just thought how much I love you

Help me help me
please please help me, help me
Help me to keep from losing you

Honey honey honey

A man is only a man
She was my first and my last mistake
So try and understand

Forgive me and forget all you've been through
Let me find my way back to you

Help me help me
please please help me, help me
Help me to keep from losing you
Help me to keep from losing you
