

Roy Orbison, If Only For Awhile

For a while I can sing
All the world and everything is touching you
Knowing you are real a miracle beside me

For a while I can breathe
Life is you, and I can cling to fantasies
Seeing me with you keeps my soul alive now

Tomorrow, if I die
At least I'll know why I live
You're mine, if only for a while

For a while, for a while
You hold my world and you can spin it
For a while, for a while
Life is good because you're in it

Tomorrow, if I die
At least I'll know why I live
You're mine, you are mine, if only for a while
