Roy Orbison, Sweet And Easy To Love

(Orbison)

Well it's so sweet and easy to love you Like I do yes it's true I love you And it's so sweet and easy to want you On my mind all the time say you're mine

I want you to say you'll always stay and be my love so true Because I know if you ever go I won't get over you Cause it's so sweet and easy to love you Like I do yes it's true I love you

[Instrumental]

Well it's so sweet and easy to love you Like I do yes it's true I love you And it's so sweet and easy to hold you Close to me, lovingly, tenderly

Now I will never love another I want only you I want to say in every way that you're my dream come true Cause it's so sweet and easy to love you Like I do yes it's true I love you I love you, I love you
