Roy Orbison, This Kind Of Love

(Roy Orbison)

Our Love, our love, won't die, can't die This kind of love was meant for you and I This kind of love was meant for you and I

Your love, my love young love, true love This kind of love was meant for you and I This kind of love was meant for you and I

One dream through life, one day my wife This kind of love was meant for you and I This kind of love was meant for you and I

One dream through life, one day my wife This kind of love was meant for you and I This kind of love was meant for you and I This kind of love was meant for you and I
