Roy Orbison, Too Soon To Know

(Don Gibson)

It's too soon to know
If I can forget her
My heart's been broken in too many pieces
And it's too soon to know.

Time passes slow, Will I ever know If I can forget her and not let it show But it's too soon to know.

News travels fast when a love affair ends People keep asking, "What happened to them?" But it's too soon to know If I can forget her My heart's been broken in too many pieces And it's too soon to know.
