

Roy Orbison, You Tell Me

Tell me why you left me, tell me why you cry
Tell you why I stayed around, tell me why she lied

I'll tell why my heart's broken, tell me why she said goodbye
Tell me why she left me, I'll tell you why you cry

You tell me, then I'll tell you, I'll tell you why I love her
Tell me why she said goodbye, tell me why she left me
I'll tell you why I cry

Tell me why I'm lonely, I'll tell why I'm alone
Tell you why I stayed around, tell me why she has gone

I'll tell why my heart's broken, tell me why she was untrue
Tell me why she left me, I'll tell you why I'm blue

You tell me then I'll tell you, I'll tell you why I love her
Tell me why she said goodbye, Tell me why she left me
I'll tell you why I cry, You tell me then I'll tell you
