

# Royal Blood, I Only Lie When I Love You

I only lie when I love you  
I only crawl when I hit the ground  
You inky cry when I love you  
I only lie when I make a sound

Go ahead muck about  
I got my conscience twisted  
Pull you hair  
Make me stout  
It's just that you insisted I was good for nothing  
Like you were onto something

I only lie when I love you  
I only crawl when I hit the ground  
You inky cry when I love you  
I only lie when I make a sound

I only lie when I  
I only lie when I  
I only lie when I  
I only like when I

Go ahead pull the plug  
Broken finger sticky finger  
No I can't get it off my chest  
And now I'm wishing you're someone else  
You know I'm up to something  
Diagnosed, no disease  
Go suspicion  
But you just can't find it up your sleeve  
And now I beg the truth be told  
From someone else all of that fuss for nothing
