

Rubber Puppy, Zombie Flesh Eaters

Listen close, can you hear the sound
Of dead men rising from underground,
They roam the city and they comb the streets,
For the delicacy of human meat.

Zombie flesh eaters from outer space,
Come to destroy your human race,
They'll eat your flesh and wear your hide,
After you've been skinned alive.

Hide away, right out of sight,
'Cause now the dead control the night,
They killed your friends, your family too,
And now they're coming after you.

Zombie flesh eaters from outer space,
Come to destroy your human race,
They'll eat your flesh and wear your hide,
After you've been skinned alive.

There's no police force to save your skin,
When the undead come strolling in,
You won't be safe inside your home,
'Cause the undead will rule the globe.

Zombie flesh eaters from outer space,
Come to destroy your human race,
They'll eat your flesh and wear your hide,
After you've been skinned alive.

Zombie flesh eaters from outer space,
Come to destroy your human race,
They'll eat your flesh and wear your hide,
After you've been skinned alive.
