

Ruel, distance

I heard you on the phone
I had you in mind
I've been on the run
Since you walked through the hallway
Heard it all before
I don't even mind
I'll do anything
Pull me in and i am far away

You're right there
But i won't say that i am standin'
I am right here
When i see you i panic
So scared of the way it might pan out

We'll i don't want to say
That this was hard, it was
Trying not to stay
But just made it worse
I've been keepin; my distance
Well, i just wanna know what you're thinking
