

Run Level Zero, Stroke

Smash some keys randomly

Normality, insanity

Sum it up / humanity

Empty landscapes deceive

Scratch the soil and you'll see / a rotting past never meant to be

Rise in a world of dust / in the wind you die

Walls are crumbling / close your eyes

Write a message on the wall / a memory left in stone

Acidic tasting rain / wash it all away

Suicidal genocide / geocide

Suicide / green / flickering...

It's a green world

Naked in the streets / shard of genetic debris

Decaying / wash it all away

Shard, genetic debris / wash it all away

Naked
