

# Rx Bandits, Only For The Night

There's a girl stuck in the mirror  
And she stares into my eyes  
She says she kiss me tender  
I say I don't love her but I know it's a lie

And lately she's been lonely  
I couldn't tell you why  
Oh no  
She lives without emotion  
She makes me better  
Only for the night  
Only for the night  
Only for the night yeah yeah  
Only for the night yeah yeah

Ohh, last night I dreamt about her  
And our bodies mocked our minds  
Her taste was so familiar  
I say I don't need her but I know it's a lie

I swear that it's the last time  
that I lay down with her  
Ohh, she holds me when I'm shaking  
And it makes me better  
Only for the night  
Only for the night  
Only for the night yeah yeah  
Only for the night yeah yeah

I swear, I swear, this is the last time I tie it  
I swear, I swear, this is the last time I tie it

She used to dream of moving pictures  
Now she slips into the sky

Lately I've been lonely  
I couldn't tell you why  
She live without emotion  
It makes me better  
Only for the night  
Only for the night  
Only for the night
