

Ryan Kulla, Victoria

Talking on the phone
So we won't be alone
Is the best thing we can do
Your voice has a tone
That puts me in the zone
And reminds me how my feelings grew

Will you be suprised
When you look in my eyes
And see that I really want you
Would you realize
And take off your disguise
To show me that you wanted me too

We need to be together
I'll never meet one better
Victoria. Victoria
We need to be together
We need it more than ever
Victoria. Victoria

The meaning of life
Is just you by my side
I'll feel at home when we meet
We'll stay in our bed
With my chest and your head
Can you hear how you make my heart beat

Will you be suprised
When you look in my eyes
And see that I really want you
Would you realize
And take off your disguise
To show me that you wanted me too

We need to be together
I'll never meet one better
Victoria. Victoria
We need to be together
We need it more than ever
Victoria. Victoria
