

Sabaton, Steel Commanders

Over 100 years ago since we first rode into fire
The rulers of the battlefield, rolling over trench and wire

Into battle, no retreat, roll out, for our foes we spell disaster
In the footsteps of Montgomery, Patton followed we came after

Fleurs-courcellette showed the way
Evolution leading to
El-Alamein until today
We're the first ones into the fray

Steel Commanders rule the battlefield
Spearhead flanders tankers leading the storm of panzers
Battle calling the Steel Commanders

For the Mark 1's introduction to the beast
Know as the Leopard
With our Chieftains and Centurions our front line has been tempered

From the fields of Prokhorovka
To the shore of Overload
The beginning of the Victory
Shermans rolling on to sword

Fleurs-courcellette showed the way
Evolution leading to
El-Alamein until today
We're the first ones into the fray

Steel Commanders rule the battlefield
Spearhead flanders tankers leading the storm of panzers
Battle calling the Steel Commanders

Steel Commanders rule the battlefield
Steel Commanders
Steel Commanders rule the battlefield

Steel Commanders rule the battlefield
Spearhead flanders tankers leading the storm of panzers
Battle calling the Steel Commanders

TARGET DESTROY!
