

Sabaton, The Royal Guard

From the frozen north they came
Fought for founding father's claim
It was then , their tale, began

Trace their roots from 16 strong
Be the king where they belong

En tid
Av krig

Wherever he goes
Near or far
They are close
For the King of Sweden
They lay down their lives

For the Swedish crown they stand
By the king, at his command
500 years for the fatherland
Marching across the belt
Crushing blow at Narva dealt
Livgardet our ROyal Guard
