

Sabrina Carpenter, Lonesome

If i fall in love with all my problems
Will they leave me too?
well maybe i believed in all your lies
Cause i believed in you
why were you somewhere else
When you were next to me
I know you know it keeps me up
Did u think about her face
with your hands around my waist ?
did u even give a fuck
You can't spell lonesome without me
Mm mm mm
and there's no hope in misery
Mm mm mm
i can't escape your history
you can't spell lonesome without me
You just can't
tell me i i was more than just a decent opportunity
or will you tell me anything i wanna hear to control how you're perceived
why were you somewhere else
When you were next to me
I know you know it keeps me up
isnt it kind of strange
how it all changed when
i wasn't the one they wanted u to love
