Sabrina Carpenter, Shadows

[Verse 1] We all got nightmares in our dreams We look for someone to believe in us And show us the way And make it okay The world can be dangerous

There's something so rare in your veins Not a single thing I would change And oh, if you only knew how I see you Would you come alive again Alive again

[Chorus] I need you to understand I don't mind your shadows 'Cause they disappear in the light I don't mind your shadows 'Cause they look a lot like mine

And listen to me It's okay to be afraid Just walk like you're never alone I don't mind your shadows Your shadows, baby I don't

[Verse 2] Pictures and our hair Of what was supposed to be Measuring ourselves but where is the love Where is the love The world got us wondering, wondering

[Chorus] I need you to understand That I don't mind your shadows 'Cause they disappear in the light I don't mind your shadows 'Cause they look a lot like mine

And listen to me It's okay to be afraid Just walk like you're never alone And I don't mind your shadows Your shadows, baby I don't

[Bridge] And all these voices in our head While I keep screaming louder and louder Well they won't pull us under

[Outro] Baby, I don't mind your shadows 'Cause they disappear in the light I don't mind your shadows 'Cause they look a lot like mine

And listen to me It's okay to be afraid Just walk like you're never alone And I don't mind your shadows Your shadows, baby I don't
