

Sabrina Carpenter, Silver Nights

Baby baby
Baby baby

You're the best present ever,
Life's a snow globe when we're together
Like a normal rock will picture
Baby baby, it's crazy how
We're walking around this frozen town,
I'm wrapped up like a bulb
In your arms, swearing stars
Bouncing off the snowflakes
Falling down and decorating all the tender lights
There's nothing like the silver nights with you!

Streets are clouds, and stores are busy
Sipping cocoa, I'm just wishing
There'll be some mistletoe and you might kiss me
Walking around this frozen town,
I'm wrapped up like a bulb
In your arms, swearing stars
Bouncing off the snowflakes
Falling down and decorating all the tender lights
There's nothing like the silver nights with you!

Uuuh uuuh uh uh uh
Uuuh uuuh uh uh uh
Uuuh uuuh uh uh uh
Baby baby
Baby baby
(I love the silver nights)
Baby baby
(Silver nights)
Baby baby
I love these silver nights.

Walking around this frozen town,
I'm wrapped up like a bulb
In your arms, swearing stars
Bouncing off the snowflakes
Falling down and decorating all the tender lights
There's nothing like the silver nights,
Nothing like the silver nights,
Nothing like the silver nights with you!
