

Sabrina Carpenter, Smoke & Fire

(Our) Our love is running into a burning building
(Our) Our love is scattered ash with a burnt up felling

Feel the heat so we started running
You know, you saw it coming
But the memories are still in my mind
Burning like smoke and fire

Rumors spread like wildfire, I held a strong ground
But I've been burning down cause it's like fire
Is all I hear about and we are fading out
Don't wanna turn out the light but it's like

I'm not fire fighter, I just need to breath tonight
So sound the alarm and there goes the night

(Our) Our love is running into a burning building
(Our) Our love is scattered ash with a burnt up felling
Feel the heat so we started running
You know, you saw it coming
But the memories are still in my mind
Burning like smoke and fire

Secrets in a small town, they always get around
But the flame has been put out and I am hearing
All this small talk they whisper as I walk
In a house that's boarded up so good luck

I'm not fire fighter, I just need to breath tonight
So sound the alarm and there goes the night

(Our) Our love is running into a burning building
(Our) Our love is scattered ash with a burnt up felling
Feel the heat so we started running
You know, you saw it coming
But the memories are still in my mind
Burning like smoke and fire

Smoke and fire (x2)
Don't ya know that there's smoke there's fire?
Smoke there's fire (x2) (Now, now...)

And now it's over, I'm getting colder
And it's the feeling of running into burning building
Rumors spread like wildfire, I held a strong ground
But I've been burning down

(Our) Our love is running into a burning building
(Our) Our love is scattered ash with a burnt up felling
Feel the heat so we started running
You know, you saw it coming
But the memories are still in my mind
Burning like smoke and fire

(Smoke and fire x2)
Don't ya know that if there's amoke there's fire
Smoke there's fire (x2) (Now, now...)

(Our) And now it's over
(Our) Im' getting colder
(Our) I'm so tired burning like smoke and fire
