

# Sagisu Shiro, Star - Loren & Mash Studio Live

(Chorus)

Follow your star  
Shining it's light all through your life  
Guiding you on-giving you strength  
For living in perfect harmony  
Getting it right,keeping it strong  
And learn to let our troubles die  
Don't be afraid,you'll have the faith  
If you follow,follow your star  
Sometimes you're feelin' all alone  
And you're needing somewhere to turn  
You've got to seek inside your soul  
When there's no-one else around  
Just hold your head up  
Don't let it get you down  
(If) its too high to climb  
You can always go around

(Bridge)

'Cos there is always more than one way  
To get you through a bad day  
If you only have faith in yourself  
When you think you've hurt someone  
And their sorrow you can't overcome  
Feel like you're heardless and don't care  
You need someone to help you out  
Just hold out your hand  
And you'll be amazed  
What you can get through  
If you just communicate

(Bridge)

(Mid-8)

It's all about your star  
Your guardian,your charm  
Your eyes,when you walk through the darkness
