

Saint Vitus, (I Am) The Screaming Banshee

I am the screaming star
You don't remember

I am the jone who started
The f**king game

I am the screaming banshee
That you don't recall

I am the one who
You think has lost it's name

Listen and you will hear

That I have been there

I'm the only one
Keep your head alive

Take a good look around
I am the one who's left
I am there, man

When it's said and done

You try to ignore me
But that won't work, dear

I am the tortured sound
Within your ear

Just like the needle, hot

Piercing inside

I will change your life

Control your fears
