

Salad, Granite Statue

Sitting in a garden with a face like a granite statue
I am winter solstice waiting like a granite statue

Just like a granite statue
I will come when the weather's fine
Just like a granite statue
I want to know what's on your mind

Every single time that I come here I can't tell you what I feel
I am so polite to you and courteous
I know that it's not real

I long to grab a hold of you and take you in my arms tonight
But when I feel I'm going to my courage flies away and I turn cold

Chorus

Just like a granite statue
Statue, is that you, statue

Just like a granite statue
I will come when the weather's fine
But I'm a granite statue
And I know you'll not ever be mine
Just like a granite statue
Statue, is that you, statue...
