

Salamandra, Metal Fever

We rock through night
We're metal knights
coming to give
the right direction
it's your redemption

We blow your mind
We'd like to see
banging your heads
with satisfaction
with affection

The guitar vibrates
crunching so high
charging the air
Go mad
go insane
get all your power out
to share

The metal beast
cannot be ceased
gets everyone
that's our evil
heavy metal fever

Riding so wild
Nobody's mild
give what you've got
that's our evil
heavy metal fever
heavy metal Hell

We ride through night
our metal steeds
feeling the rage
the right explosion
your fate's been chosen

We have fierce guts
we hold heads high
to show our pride
with real emotion
with devotion
The guitar vibrates
crunching so high
charging the air
Go mad
go insane
get all your power out
to share

The metal beast
cannot be ceased
gets everyone
that's our evil
heavy metal fever

Riding so wild
Nobody's mild
give what you've got
that's our evil
heavy metal fever
heavy metal Hell
