

Salamandra, War Is Over

Brothers forever, we gained our victory
No one will tear our rows apart
We fought together, we won our victory
No one will forget those times

We fought enemies
Broke them to their knees
No one got out alive

We fought enemies
Broke them to their knees
For the glory of our Queen

Now our war is won forever
Peaceful land under the sky
Without fear the people gather
To hail our heroes glorified

We fought enemies
Broke them to their knees
No one got out alive

We fought enemies
Broke them to their knees
For the glory of our Queen

Now our war is won forever
Peaceful land under the sky
Without fear the people gather
To hail our heroes glorified

Now our war is won forever
Peaceful land under the sky
Without fear the people gather
To hail our heroes glorified
