

Saliva, Spitshine

Come on and hit me with the real thing
you knock me up and then back down again
come on and hit me with the real think
you knock me up and then back out again
I've been waiting
I wait with my hands upon my knees
I don't mind
I don't mind
I don't mind
I don't fight it
Shine
come on and hit me with the real thing
shine
come on and hit me with the real thing
shine
come on and hit me with the real thing
shine
come on and hit me with your spitshine.
