

# Sammy Kershaw, Feelin' Good Train

(Mike Lawler/Al Anderson)

(Track 1 - Time 3:37)

All aboard  
The feelin' good train

It's a long way from here to heaven  
It takes a lifetime before you get in  
You work so hard just tryin' to make a livin'  
Still you wind up on the losin' end

Everybody needs a little sunshine  
Forget your troubles leave 'em all behind  
I know a place where they're feelin' no pain  
So get on board the feelin' good train

There's a light at the end of the tunnel  
Hear the whistle blowin' 'round the bend  
We don't want to leave the station without you  
You'll have the best time that you'll ever spend

Everybody need some time to unwind  
Dance all those blues right out of your mind  
And there's a place where you can run from the rain  
So get on board the feelin' good train

This train runs all across the country  
This trail rolls all around the world  
You don't even need to buy a ticket  
So c'mon every man, woman, boy or girl

Everybody needs a little sunshine  
Forget your troubles leave 'em all behind  
I know a place where they're feelin' no pain  
So get on board the feelin' good train  
Feelin' good train  
Feelin' good train  
Feelin' good train  
Feelin' good train
