

# SAN, Kiss of Life (feat. Wendel Kos)

After all the rain u brought on my head  
After all the pain, after all the pain  
You're back again.

You remember how it could be  
You remember how it once was baby  
Like it being saved, like it being saved  
And need this here.

Is a kiss of life you want  
Make it come like no other  
Bring it back to where it all first started.

Is a kiss of life you want  
Where hearts found one another  
Bring it back to where it all first started.

Something is missing from the story  
Somewhere in between search and rescue  
After all the days, after all the days  
You stayed away.

Cuz u made a connection to me  
Your connection to your life line baby  
Like it being saved, like it being saved  
Yo breath again.

Is a kiss of life you want  
Make it come like no other  
Bring it back to where it all first started.

Is a kiss of life you want  
Where hearts found one another  
Bring it back to where it all first started.

I can feel, I can feel  
You come alive, come alive  
/4x

After all the rain u brought on my head  
After all the pain, after all the pain
