

Sandra, I Close My Eyes

It's not the first time that I'm feeling, feeling alone
It's not the last time that tears will flow
I prayed to God, I pray to everybody who can help me
You should know, you should know where to go

I close my eyes and see
The world beside of you and me
I close my eyes and feel
Your breath, your touch be there for me

It's not the first time I say 'hello', you say 'goodbye'
Misunderstandings the reason why?
It's not the last time I say 'hello', you say 'goodbye'
Remember all the dreams we shared for so long
For so long time

I close my eyes and see
The world beside of you and me
I close my eyes and feel
Your breath, your touch
Your breath, your touch
Be there, be there for me
